CERTIFICATIONS :

- [Design Psychology : Master the Art and Science of UX Design by LinkedIn Learning](#)
- [UI/UX Course by Tutedude](#)
- [Data Analysis with Python by freeCodeCamp](#)

ACADEMIC PROJECTS :

The Drobe (Smart E-Commerce Platform)

Designed a modern e-commerce experience tailored for fashion brands, focusing on personalized product discovery and seamless shopping journeys. Developed user flows, responsive interfaces, and intuitive navigation systems to improve browsing efficiency and product engagement. Created high-fidelity UI screens and interactive prototypes using Figma.

AG Diamonds Website

Designed and structured a professional business website for a diamond trading company to strengthen its digital presence and improve customer engagement. Focused on information architecture, visual hierarchy, responsive layouts, and lead-generation opportunities while maintaining a premium brand identity.

Academic Workflow Management System

Designed a centralized platform to streamline academic activities such as assignment submissions, course management, scheduling, and communication between students and faculty. Conducted workflow analysis and created user-centered interfaces to reduce complexity and improve operational efficiency.

Notes Management System

Designed a digital note organization platform that enables users to create, categorize, search, and manage academic notes efficiently. Focused on accessibility, information architecture, and simplified navigation to improve content retrieval and user productivity.

Cloud-Based Attendance System

Designed a cloud-enabled attendance management solution that allows students and faculty to track attendance records in real time. Developed user flows and dashboards for attendance monitoring, reporting, and record management while ensuring a simple and efficient user experience.

PERSONAL PROJECTS :

Quick & Fresh Laundry (UX Case Study)

Conducted user research to understand the challenges faced by hostel, PG, and apartment residents in accessing reliable laundry services. Designed an end-to-end mobile experience including service discovery, pickup scheduling, order tracking, and payment workflows. Created user personas, journey maps, wireframes, and high-fidelity prototypes, resulting in a streamlined laundry booking experience focused on convenience and transparency.

TaskNest (Flutter Productivity App)

Designed a task management application that helps users organize, prioritize, and track daily activities efficiently. Created onboarding flows, task creation workflows, productivity dashboards, and reminder systems while ensuring a clean and intuitive user experience across mobile devices.

Freelance & Design Experience

- Designed brand identity/icon for Better Call Thrift clothing brand.
- Designed website experience for AG Diamonds.
